

Cobane Code Review Audit Summary - Review #4

Generated automatically by Cobane AI Code Review Assistant

Detected Findings & Recommendations:

- (1) Line 10: [STYLE] Missing docstring at module level (missing-docstring). -> Suggestion: Add descriptive module-level docstrings at the beginning of files.
- (2) Line 18: [SECURITY] Use of assert statement detected (bandit B101 warning). -> Suggestion: Avoid using asserts in production context; raise clean runtime exceptions.
- (3) Line 10: [NAMING] Variables named x or y do not convey semantic naming meanings. -> Suggestion: x = 42 -> total_count = 42
